- i. For non-credit courses ‘Satisfactory’ or ‘Unsatisfactory’ shall be indicated instead of the letter grade and this shall not be counted for the computation of SGPA/CGPA.
- ii. The University shall decide on the grade or percentage of marks required to pass in a course and also the CGPA required to qualify for a degree taking into consideration the recommendations of the SRAs such as UGC, AICTE, MCI, BCI, NCTE, etc.
- iii. **Computation of SGPA and CGPA:** The computation of the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) shall be done as follows:

- a. The SGPA is the ratio of the sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits in all the courses undergone by a student, i.e., $SGPA (S_i) = \frac{\sum(C_i \times G_i)}{\sum C_i}$; where C_i is the number of credits of the i th course and G_i is the grade point scored by the student in the i th course.
- b. The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a Programme i.e., $CGPA = \frac{\sum(C_i \times S_i)}{\sum C_i}$; where S_i is the SGPA of the i th semester and C_i is the total number of credits in that semester.
- c. The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.
- d. Transcript (Format): The Format for Transcripts shall be:
